Dr Aletha Jacobs  
Amsterdam, Holland.

Dear Madam:

After reading about your work in Holland, in the Pictorial Review, and realizing what it has meant to the families there, I hoped that you could give me some information in regard to birth control that the prudish ideas in this country will not allow.

I am a married man with two children and we do not feel that we are able to take care of any more as they should be taken care of. If you can furnish us with the information that you have given to the families of your country I will be more than glad to pay you in a monetary way. In any other way I cannot pay you nor can my Wife.

Yours very truly,

1730 West Court St  
Flint, Michigan  
U.S.A.
