ABSTRACT

KVINNSAM AND GENA – A Presentation of two Databases from the Women’s History Collections

Berith Backlund, Göteborg University Library, Sweden

Presented at Gender and Power in the New Europe, the 5th European Feminist Research Conference
August 20-24, 2003 Lund University, Sweden

The objective of this workshop is to present and to demonstrate two bibliographical databases produced by the Women’s History Collections at Göteborg University Library.

http://www.ub.gu.se/samlingar/kvinn/index_eng.html

KVINNSAM is an interdisciplinary database with references from the collections in Göteborg University Library. The database contains about 100,000 records from the early 1970’s onwards. It has been on the web since 1998, with search interfaces in both Swedish and English.
